M. MICHAELIDIS

The conveyor belt is made of specific material which prevents heat loss.

When we use toast or small baguettes the back door should be closed, so as the products to be driven forward by the retraction mechanism as it is shown in picture A

When we want to toast products such as pizza, big baguette, burger etc, the door should be opened, as it is shown in picture B, and based on specific holders

From hotels, convenience stores, coffee houses to bars and restaurants Multi Grill Roller offers a one-stop solution for food with greater consistency and faster cooktimes.

With its high performance is capable to serve more customers during peak times, hence can help even the smallest operation expand or enhance its menu offerings economically.

Multi Grill Roller is ideal for toasting and heating up bread, croissant, bruschetta, pizza, baguette, potato and many other snacks. Both the appliance and the conveyor belt are stainless steel.
